

Krzysztof Kopeć

Summary

Work History

- present

Accenture

Business Systems Analyst

I have been improving the telecommunication system by adding new functions and infrastructure, such as triggers responsible for sending SMS messages. I have been presenting the progress on a live demo for the client after each sprint. I operated on oracle database. I cooperated with QA team as well as performing tests individually.

2020-03

Accenture

- 2021-07

Intern

A year-long internship in an international project supporting a team of analysts using SAS software. Programming components for user interface in React language. Working with Oracle database.

2018-08

Institute of Nuclear Chemistry and Technology

- 2019-02

Helpdesk Support Technician

Direct and remote support of users in their daily work on workstations.
Hardware and software management.
Installation and configuration of workstations and other IT equipment.
